Associate Professor of Radiology
The University of Missouri-Kansas City School of Medicine
Chair, American College of Radiology Radiology Advocacy Network & RADPAC
Chair, American Cancer Society-Kansas City Chairman's Circle Board
Kansas City, Missouri

Jason P. Shames, M.D., M.B.S.
Assistant Professor of Radiology
Interim Chief, Division of Breast Imaging
Associate Director of Research, Division of Breast Imaging
Department of Radiology
Jefferson Health & Thomas Jefferson University
Philadelphia, PA

Overview

This webinar is designed to bring awareness to radiologists, mammography technologists and administrators about mammography screening compliance gaps and possible causes of the lack of compliance.

Target Audience

This activity is intended for radiologists, mammography technologists and administrators.

Learning Objectives

- Discuss the broader significance of diversity and inclusion in Mammography
- Provide an overview of current mammography services, and how they cater to diverse populations
- Understand statistics and studies that show disparities in mammography access and outcomes among different demographic groups
- Identify common barriers that populations face in accessing mammography services and discuss solutions and strategies to overcome these barriers
- Discuss best practices to overcome barriers in mammography
- Explore current and future innovations in mammography that could enhance diversity and inclusion, addressing gaps and improving care for all populations
